Brian Haw

**Parliament Square
Peace Campaign**

Let us treat our neighbour's kids as if they were our own.
Bottom left: Brian with his grandchild Jessica. *Bottom right:* an Iraqi baby born with anencephaly, a defect in brain development, in a Baghdad hospital. His shocked mother disappeared soon after. War in the Gulf has seen US/UK forces use huge quantities of Depleted Uranium Munitions. These nuclear weapons will have a huge impact on the health of people in the region for generations to come, but their effects are already being felt. Iraq has experienced a huge increase in the numbers of babies born with congenital disorders and cancers. From an exhibition, *Children of the Gulf War*, by Takashi Morizumi.
